Word Processor Policy (Examinations)

This policy is reviewed annually to ensure compliance with current regulations

Approved/reviewed by	
M Wilde/ G Gray	
Date of next review	Sept 2025

Key staff involved in the policy

Role	Name(s)
SENCo	**Miss G Gray**
Exams Officer	**Mrs C Haigh**
Senior Leader(s)	**Mr D Morgan, Mr M Wilde, Miss P Jones, Mr A Holt, Mrs J Munro**
IT Manager	**Mr M Hefferan**

Contents

This policy is reviewed and updated annually on the publication of updated JCQ regulations and guidance on access arrangements and instructions for conducting exams.

References in this policy to AA and ICE relate to/are directly taken from the Access Arrangements and Reasonable Adjustments 2024-2025 and Instructions for conducting examinations 2024-2025 publications.

Introduction

The use of a word processor in exams and assessments is an available access arrangement/reasonable adjustment.

(AA 4.2.1)
The purpose of an access arrangement/reasonable adjustment is to ensure, where possible, that barriers to assessment are removed for a disabled candidate preventing them from being placed at a substantial disadvantage due to persistent and significant difficulties. The integrity of the assessment is maintained, whilst at the same time providing access to assessments for a disabled candidate.

A centre **must** make decisions on appropriate access arrangements for their candidates. Although professionals from other organisations may give advice, they **cannot** make the decision for the centre. They will not have a working knowledge of an individual candidate's needs and how their difficulties impact in the classroom and/or in timed assessments. It is the responsibility of the SENCo to make appropriate and informed decisions based on the JCQ regulations.

(AA 4.2.2)
Although access arrangements/adjustments are intended to allow access to assessments, they cannot be granted where they will compromise the assessment objectives of the specification in question.

(AA 4.2.3)
Candidates may not require the same access arrangements/reasonable adjustments in each specification. Subjects and their methods of assessments may vary, leading to different demands of the candidate. SENCos (or equivalent role) **must** consider the need for access arrangements/reasonable adjustments on a subject-by-subject basis.

(AA 4.2.1)
The SENCo, or equivalent role **must** ensure that the proposed access arrangement/reasonable adjustment does not unfairly disadvantage or advantage the candidate.

(AA 4.2.7)
The candidate **must** have had appropriate opportunities to practice using the access arrangement(s)/reasonable adjustment(s) before their first examination.

Purpose of the policy

This policy details how St Bede's Catholic High School complies with AA chapter 4 (Managing the needs of candidates and principles for centres), section 5.8 (Word processor) and ICE (sections 14.20-27) when awarding and allocating a candidate the use of word processor in examinations.

The term 'word processor' is used to describe for example, the use of a computer, laptop or tablet.

The use of a word processor

The centre will
- allocate the use of a word processor to a candidate with the spelling and grammar check facility/predictive text switched off where it is their normal way of working within the centre (AA 5.8.1)
- award the use of a word processor to a candidate where appropriate to their needs
  For example, a candidate with:
    - a learning difficulty which has a substantial and long-term adverse effect on their ability to write legibly
    - a medical condition

- o a physical disability
- o a sensory impairment
- o planning and organisational problems when writing by hand
- o poor handwriting (AA 5.8.4)
- only permit the use of a word processor where the integrity of the assessment can be maintained (AA 4.2.1)
- not grant the use of a word processor where it will compromise the assessment objectives of the specification in question (AA 4.2.2)
- consider on a subject-by-subject basis if the candidate will need to use a word processor in each specification (AA 4.2.3)
- process access arrangements/reasonable adjustments at the start of the course, or as soon as practicable having firmly established a picture of need and normal way of working, ensuring arrangements are always approved before an examination or assessment (AA 4.2.4)
- provide the use of word processors to candidates in non-examination assessment components as standard practice unless prohibited by the specification (AA 5.8.2)

The centre will not
- simply grant the use of a word processor to a candidate because they now want to type rather than write in examinations or can work faster on a keyboard, or because they use a laptop at home. (AA 5.8.4)

Exceptions

Additionally, the use of a word processor would be considered for a candidate:
- in the event of a temporary injury or impairment, or a diagnosis of a disability or manifestation of an impairment relating to an existing disability arising after the start of the course (AA 4.2.4)
- where the curriculum is delivered electronically and the centre provides word processors to all candidates (AA 5.8.4)

Centre specific processes

- ▶ The SENCo captures information and guidance from staff within the centre and makes AA and completes professional assessments of the individual child who needs access to a laptop.
- ▶ The SENCo will use a screener as part of the evidence for comparative measures, for example handwriting speed against typing speed.
- ▶ Evidence of illegible handwriting can be gathered from classwork, test and assessments and used to support the Form 8 application.

Arrangements at the time of the assessment for the use of a word processor

Candidates using word processors (including laptops or tablets) are internally accommodated in the following manner:

- ▶ During any exam and/or assessment the assigned laptops / tablets are managed by the exams officer and network manager and are not allowed to be used in other areas of day-to-day school life.
- ▶ All Laptops assigned for such exams are locked away in the exams cupboard
- ▶ Candidates will, as far as possible, be accommodated in a separate exam room. They will use desk-top computers, logging in via a secure exams account that does not have access to the internet, Word, spelling/grammar check, calculator.

The network manager will support the exams officer with requests for laptop/ tablet provision and ensure that they are in reliable and good working order.

Other arrangements relating to the use of word processors include:

- ▶ Pupils will not remove the laptop/ tablet from an exam room before, during or after the exam is completed.
- ▶ Pupils will not use any other external equipment e.g. memory sticks when using a laptop/ tablet to complete their exams.
- ▶ In the event of a malfunction of their laptop they will report this to the invigilator immediately who will notify the time and communicate the issue immediately to the exam officer and SLT / Network Manager so alternative provision / equipment can be provided.

In compliance with the regulations the centre:

- provides a word processor with the spelling and grammar check/predictive text switched off to a candidate where it is their normal way of working within the centre, unless an awarding body's specification says otherwise (ICE 14.20)
- (where a candidate is to be seated with the main cohort without the use of a power point) checks the battery capacity of the word processor before the candidate's exam to ensure that the battery is sufficiently charged for the entire duration of the exam (ICE 14.21)
- ensures the candidate is reminded to ensure that their centre number, candidate number and the unit/component code appear on each page as a header or footer e.g. 12345/8001 – 6391/01 (ICE 14.22)
- If a candidate is using the software application Notepad or Wordpad these do not allow for the insertion of a header or footer. In these instances, once the candidate has completed the examination and printed off their typed script, they are instructed to handwrite their details as a header or footer. The candidate is supervised throughout this process to ensure that they are solely performing this task and not re-reading their answers or amending their work in any way.
- ensures the candidate understands that each page of the typed script must be numbered, e.g. page 1 of 6 (ICE 14.23)
- ensures the candidate is reminded to save their work at regular intervals (or where possible, an IT technician will set up 'autosave' on each laptop/tablet to ensure that if there is a complication or technical issue, the candidate's work is not lost) (ICE 14.24)
- instructs the candidate to use a minimum of 12pt font and double spacing to make marking easier for examiners (ICE 14.24)

(ICE 14.25)

The centre will ensure the word processor:

- is only used in a way that ensures a candidate's script is produced under secure conditions
- is not used to perform skills which are being assessed
- is not connected to an intranet or any other means of communication
- is in good working order at the time of the exam
- is accommodated in such a way that other candidates are not disturbed and cannot read the screen
- is used as a typewriter, not as a database, although standard formatting software is acceptable
- is cleared of any previously stored data
- does not give the candidate access to other applications such as a calculator (where prohibited in the examination), e-mail, the Internet, social media sites, spreadsheets
- does not include graphic packages or computer aided design software unless permission has been given to use these
- does not have any predictive text software or an automatic spelling and grammar check enabled unless the candidate has been permitted a scribe (a scribe cover sheet must be completed), or the awarding body's specification permits the use of automatic spell checking
- does not include computer reading (text to speech) software unless the candidate has permission to use a computer reader

- does not include speech recognition technology unless the candidate has permission to use a scribe (a scribe cover sheet must be completed)
- is not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe (a scribe cover sheet must be completed)

Portable storage medium
(ICE 14.25)
The centre will ensure that any portable storage medium (e.g. a memory stick) used:
- is provided by the centre
- is cleared of any previously stored data

Printing the script after the exam has ended
(ICE 14.25)
The centre will ensure:
- the word processor is either connected to a printer so that a script can be printed off, or have the facility to print from a portable storage medium
- the candidate is present to verify that the work printed is their own
- a word-processed script is attached to any answer booklet which contains some of the answers
- if a candidate omits to insert the required header or footer, they are instructed to handwrite the details as a header or footer; the candidate is supervised throughout this process to ensure that they are solely performing this task and not re-reading their answers or amending their work in any way (ICE 14.22)

The centre will also ensure that where an awarding body may require a word processor cover sheet, this is included with the candidate's typed script (and according to the relevant awarding body's instructions). (ICE 14.26)

The centre may retain electronic copies of word-processed scripts as the electronic copy of a word-processed script may be accepted by an awarding body where the printed copy has been lost. However, the centre would need to demonstrate to the awarding body that the electronic file has been kept securely. The head of centre would be required to confirm this in writing to the awarding body. (ICE 14.27)

Centre specific processes

- If the word processor is not connected to a printer, after the candidate has completed the exam, an invigilator will bring the candidate, the pen drive and the candidate's completed exam booklet to the Exams Officer.
- The EO will then print out the candidate's work in the presence of the candidate.
- The candidate will then write their name etc. on the printed work.
- The EO will complete the word processor cover sheet (if applicable).

Allocating word processors at the time of the assessment

Appropriate exam-compliant word processors will be provided by the IT department in liaison with the SENCo and the exams officer.

In exceptional circumstances where the number of appropriate word processors may be insufficient for the cohort of candidates approved to use them in an exam session, the cohort will be split into two groups. One group will sit the exam earlier than or later than the awarding body's published start time.

The security of the exam will be maintained at all times and candidates will be supervised in line with ICE7.
